Ride Information:

- Routes are located here: www.cheetahfest.org/routes
- Our routes are marked with Dan Henry markings, which are triangles with a line poking out showing the direction you should be going. **Orange for the first loop, green for the second loop.**

- We will have a rest stop with fluids and snacks midway through each loop (no toilet). Each loop goes back to Camp Riverlea which will have both a rest stop and toilets.
- There are multiple store stops along both routes if you need additional fuel or a pit stop during the ride.
- We will have a mechanic on site before both loops, able to do simple repairs. Please make sure that you have your own spare tubes and cartridges.
- We will have a SAG out on the route on Saturday, capable of simple repairs or transportation back to the camp. Please program our SAG number into your cell phone now: John Fox (TeamCBC) 919-397-7059
- We are also planning an informal, unsupported recovery ride on Sunday morning at around 9:00am.
